CHRISTMAS STORY.

In the Christmas number of the RECORD-UNION will appear a Christmas story, written for this journal by one of the most talented and popular of European novelists. It will be complete in that number, and will probably occupy between fourteen and fifteen columns. It will be found to be a deeply interesting romance, strong in character sketches, powerful in its descriptive phases, and to have a plot most natural and of thrilling interest. It will n all respects be the leading and most attractive Christmas story published in any news journal of he country

Prime Ecmedy for a Painful Disease The pangs endured by the rheumatic are attributed by scientific pathologists to the contact of a certain abnormal acrid element in the blood with the sensitive covering of the muscles and joints. Hostetter's Stomach Bitters, being a superb blood depurent, is admirably calculated to expel this impurity, and, by removing the cause, to allay the pain and feverish symptoms which it produces. That it is a most successful remedy for rheumatism, neuralgia and gout, as well as a reliable means of counteracting those diseases, is a fact amply evidenced by voluntary certificates emanating from those whom it has cured, and attested by medical practitioners of high repute. It is likewise a sovereign curative of dyspepsia, constipation, liver complaint, urinary troubles and general debility, as well as the most popular and suc-cessful antidote to malaria extant.

LIGHTHILL'S professional attention has been exclusively devoted to the relief and cure of these important ailments, and it is with pardonable pride that he refers to the success which he has achieved in this special department of medical science. His apparatus and appliances for the examination and treatment of the hidden cavities of the head, throat and air passages are original, and confessedly the most perfect of anything of the kind yet devised, enabling him not tions to the diseased parts so effectually that relief is experienced at once, and permanent cures are often effected in the most stubbern and aggravated cases. when a diploma is refused to one explanation is due to the public. A diploma was rerused to Miss May Cummings on Tueeday evening, December 19th, because she openly defied the authority of the Faculty of Sacramento Seminary, by reading an essay which she had been forbidden to read, as it was not deemed original with her.

The Faculty never "admitted that Miss Cummings wrote the essay entitled 'An Innovation.'" She was allowed to complete her examinations and take part in the graduating exercises only by writing an apology for insubordination and assuming an obedience, which was not genuine, by taking daily lessons in reading an essay, accepted by the teachers, entitled "Nothing Comes from Nothing." When Miss Cummings first expressed an unwillingness to read this as a graduating essay she was offered her diploma on any one of three conditions. First, to omit reading an essay on Commencement evening—a favor which had never before been granted to any scholar—and take part only in the music; to finish her examinations and graduate privately; or read, as all other graduates have, the essay already accepted by the teachers. But she was plainly told that she could not read the essay entitled "An Innovation," and receive her diploms. Had the diploma been given to Miss Cummings under these circumstances, it would have been subversive of all school discipline, and would have opened the way WHEN A DIPLOMA IS REFUSED TO ONE Twenty-three through emigrants left on cumstances, it would have been subversive of all cumstances, it would have been subversive of all school discipline, and would have opened the way for a Commencement in which any pupil might take, not the part approved by her teachers, but anything that suited her fancy, however contrary to good taste or sound morality. No young lady has ever-received a diploma from Sacramento Seminary without first reading an essay approved by her teachers, and no graduate has ever "informed the Principals" of what she would or would not do. The refusal of the diploma is fully approved by the teachers and by all of Miss Cummings' classmates.

LOCAL INTELLIGENCE

A PECULIAR CASE, IMPORTANT TO CORPO-RATIONS .- The case of Hobbs vs. Heilborn, Sheriff, et al., recently passed upon by Judge Denson of the Superior Court, involved a proposition of importance to persons who deal with corporations, as it determines the status of debtors of a defunct insurance company. The California Farmers' Mutual Insurance Association, an outgrowth of the Granger movement in 1874, organized as an insurance company in that year, and did a large busicompany in that year, and did a large busi-ness with farmers and members of the several Granges, on a plan peculiar to itself. Many of the farmers became indebted to the com-pany on contracts of insurance, failed to pay, were sued and lost the cases. In the course of the litigation a discovery was made of what was claimed to be a defect in the original ar-ticles of incorporation, filed in 1874, and the Attorney-General was induced to permit an action of quo warranto to be brought in the name of the State, to declare that, by reason of the alleged defect, the corporation was of the alleged defect, the corporation was not legally created and never had a lawful existence. On the trial of this quo; warranto suit the Superior Court at San Francisco held that the articles of incorporation were de- the Calvary Baptist Church at 3 o'clock. fective, and as a result there never had been, in law, such a corporation. The Sheriff of amento county held an execution against brought an injunction suit, stating the facts above detailed. The argument on demurrer views. and order to show cause brought before the Court the question, "What became of the debt, the judgment and execution on it, and what was the relation of the debtor to the held by the Court that he who had dealt with the corporation as such, made a contract with it and had the expected benefit, was estopped later. The meeting was opened with prayer by from saying it was not a corporation; that, Rev. J. Q. A. Henry. Professor Knowlton, of hiding burned, the company could not resist payment of the loss on the plea that it never had a legal existence, and the other party was bound in a like manner; that the company was bound in a like manner; other party was bound in a like manner; that the company was a de facto corporation, and whether it was one de jure or not wes a matter between it and the State alone. That the judgment by the Superior Court of San Francisco declaring the corporation dissolved was not a legal defense to the payment of a debt contracted with said company, and the effect of such judgment of dissolution was not such as to prevent a collection of the effect of such judgment of dissolution was Professor Knowlton spoke on the subject of not such as to prevent a collection of the recitations, and recommended that teachers assets of the de facto corporation or discharge it from its obligations. The injunction was

MIDDLE-ACED MEN.

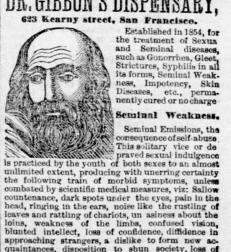

There are many at the age of thirty to sixty who are troubled with too frequent evacuation of the bladder, often accompanied by a slight smarting purning sensation, and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposits a ropy sediment will often be found, and sometimes small particles of albumen will appear, or the color will be of a thin milkish bue, again changing to a dark and torpid appearance. There are many men who die of this difficulty, ignorant of the cause, which is the second stage of seminal weakness. Dr. S. will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs.
